

THE
RETROFIT
ACADEMY

Your fully funded introduction to Domestic Retrofit Level 2 Award in Understanding Domestic Retrofit (UDR)

The Retrofit Academy CIC has been awarded funding under the Green Homes Grant (GHG) Skills Training Competition to train 1,000 new and existing energy efficiency installers in Understanding Domestic Retrofit.

This 3 day course is aimed at:

- Those not currently in education, employment or training
- New entrants in the industry with little or no understanding of domestic retrofit
- Existing installers with experience but who do not hold any qualifications in domestic retrofit

SECURE YOUR PLACE NOW

WHAT'S UDR ABOUT?

Candidates will be enrolled onto the NOCN Level 2 Award in Understanding Domestic Retrofit. This is a nationally recognised qualification and a stepping-stone to securing employment in this rapidly growing market.

Course learners will gain an understanding of what retrofit is, what retrofit achieves and how they can have a future in retrofit.

The training will be delivered via six interactive e-Learning sessions. It takes only 18 hours to complete the course over a period of three days.

Access to places will start February 2021 and will conclude no later than 30th April 2021. The course is fully funded for learners who complete the qualification on time.
